## Examine the Past, Present, and Future with HPL

### Concrete and Cast Iron. 200 Year Old Cities

In the September Gallery, Timothy P. Dingman will be showing photographs of the NJ Transit terminal in Hoboken and various construction sites in Newark. At the turn of the previous century, Hoboken was a thriving commercial port town. The NJ Transit and Hudson ferry termi-

nal was built in 1907 and many of its architectural features remain as they were then. The terminal at night is positively eerie; haunted by its own past and the Erie Lackawanna clock tower. The images of Newark deal with the demolition of park space and "elderly" buildings to make way for new construction. There will be an art reception on September 4 at 7 PM.

### Science Fiction and Fantasy Book Discussion

Join us for a book discussion of Larry Niven's science fiction classic, *Ringworld* on Monday, September 22 at 6 PM. We'll also talk about our favorite sci-fi and fantasy authors! Email [hplwriters@gmail.com](mailto:hplwriters@gmail.com) to be added to our mailing list.

currently provides training and workshops to various groups in the US and around the world where he connects meditation and spiritual development to important aspects of our lives.
