

Women's History Month Displays in the 2nd Floor Vestibule

As part of the National Endowment for the Humanities (NEH), We the People Program's Picturing America initiative, the Hoboken Public Library has received 40 prints of the nation's most significant historical artwork to put on display at the library. This March, for Women's History Month we will be displaying Dorthea Lange's *Migrant Mother*, 1936 and Mary Cassatt's *Boating Party*, 1893. *Migrant Mother* captures according to Lange not simply the poverty of the migrant farm workers during the Great Depression, but also "their pride, their strength, their spirit". Dorthea Lange was born in Hoboken and photographed the town's first librarian, Thomas Hatfield. Cassatt's depictions of women, including many of mothers and children, are especially touching and reveal the lives of other females during her era. We hope you enjoy these powerful works of art which not only depict women in history, but were created by women.

Also this month, we will feature a display of the library's first female librarian, Nina Hatfield. Included will be articles about her programs and some of the poetry she wrote for yearly Book Weeks. Nina introduced the first storytime hour at the library.
